With groups of 5 to 1000 plus and a duration of 2 hours to 3 days, we have the experience, professionalism and flexibility to create tailor made events according to virtually any brief.

The Enigma Project is a series of secret agent challenges, each lasting around 20 minutes, providing a very versatile and flexible format which can include key messages, branding and icons.

Code breaking, dodging the lasers, sniper shooting or negotiating the minefield - teams can be in competition, with scoring achieved by the award of the Spy Games Dollar.

With problem solving skills, logistical, cerebral and physical challenges available, our events cover common business objectives such as communication, team spirit and leadership. Our expert facilitators can discuss these topics as a result of group „Mission analysis.“

The Enigma Project can conclude with a screen projected photo presentation of the event, set to music from the spy classics, with prizes awarded to the winning team.

Give us a call, let us know what you'd like and we can tailor the event to suit your requirements. Give us a challenge!! We can also provide your evening entertainment, with themed decoration, music from the spy and crime classic movies, TV or slideshow presentations, look-alikes from the Bond movies, stunning action sequences, our evening Spy Challenges and of course the Casino.

SURVIVAL TRAINING

Have you got what it takes to survive?!

Can you and your team build a shelter to live outdoors, prepare and cook food on a fire or makeshift oven or even master night-time navigation?

Spy Games have created a fantastic survival event which can be tailored to suit your exact requirements. It can involve the very basics such as constructing a basher for overhead cover, making fire with only a flint or wood and then learn how to catch your evening meal!

The programme can either be an afternoon, full day or better still, 24 hours where you sleep out under the stars.

The event can start with teams navigating their way to various checkpoints to retrieve supplies and equipment. Next create a camp to provide communal eating and sleeping facilities. A few luxuries can be added such as 2 man tents or sleeping bags to make the night a bit more comfortable.

The evening meal can either be 24 hour ration packs or you can cheat a little with a BBQ or even a hog roast. A few games and beers around the campfire is a great way to finish off the night.

The following morning can either involve teams taking part in various challenges such as high /low ropes, obstacle course and climbing, or you can simply have a full English breakfast and then make your escape.

All the instructors are ex-military personnel who have extensive experience in surviving in extreme conditions from Arctic to Desert or Jungle.

We will tailor a survival programme to suit your needs, aims and objectives.
